FIND OUT HOW PHIL TING IS WORKING TO RESET SAN FRANCISCO...

Our city deserves a government as innovative as the people of San Francisco.

THAT'S WHY PHIL TING IS RUNNING A NEW KIND OF CAMPAIGN CALLED RESET SAN FRANCISCO.

PHIL TING BRINGS TOGETHER the hard-won experience of turning around one of the city's worst agencies, a background as a business consultant helping companies embrace reform and the management experience of leading one of the city's most successful non-profit organizations. He's helped create jobs as Co-Chair of ChinaSF by bringing new companies to San Francisco, promote our economy and environment with GoSolarSF and generate over \$300 million in new revenue by improving efficiency—without raising taxes. He currently lives in the Sunset District with his wife and two young daughters.

We all love San Francisco, but we know we can do better. Phil Ting's campaign to Reset San Francisco is organizing tens of thousands of San Franciscans around solutions to make our government work for everyone.

Phil Ting is starting with resetting Muni. Phil understands the most important step we can take to improve our quality of life is to make Muni faster and more reliable. Reset is about holding City Hall accountable for results, starting with transit that gets us to work and school safely, quickly and reliably.

A better government helps create a stronger economy. Phil Ting knows how a better government makes a difference. He took over one of the city's most troubled departments and helped turn it around — creating over \$300 million in new revenue without new taxes. That's revenue that can be used on the investments we know strengthen our economy — like better schools, green job infrastructure and faster, more reliable transit.

Politicians can't do it alone. If politicians could solve all of our problems, we wouldn't have so many. That's why as a candidate for mayor Phil Ting launched Reset San Francisco — to give everyone a greater voice in making our government work.

Stay in touch at www.ResetSanFrancisco.org. There are solutions out there — and we need to make sure City Hall is listening. See how it is already working at www.ResetSanFrancisco.org.
