

HELP PHIL TING

Find out how **RESET SAN FRANCISCO**

is working to reset the
Municipal Railway
and other broken city
services.

PHIL TING

knows it's time to
Reset San Francisco
starting with the...

I imagine a **Muni** that **actually works**. It can happen — if we take charge and demand the changes needed to make our buses and streetcars run reliably and run more frequently.

Phil Ting understands that our city government can be so creative and innovative as the rest of San Francisco. That's why as a candidate for mayor Phil Ting launched Reset San Francisco — to give everyone a greater voice in making our government work. Find out for yourself how Reset San Francisco is already helping to improve our quality of life at www.ResetSanFrancisco.org.

What happens when we Reset our city government? We create a stronger economy, work in partnership for better schools and start making our Municipal Railway run faster and more reliable.

Muni is the slowest transit system in America, and not by the least reliable. But there are solutions — simple things like putting headlights after stop signs so we don't have to stop, proven technologies like timing lights, and clear priorities — like keeping City Hall from diverting money that we approved to be Muni (see published pet projects).

Join us as we work to Reset San Francisco — starting with resetting the N Judah, the L Tunnel, the 38 Ocean View, the K Ingwood and all of the buses that make up our Municipal Railway.

**JOIN US AT
OUR RESET
N JUDAH
TOWN HALL**

**Villa Romatta
731 Irving St.
Saturday, October 1
1:00 pm**

RSVP at www.ResetSanFrancisco.org or on Facebook. There are solutions out there — and we need to make sure City Hall is listening. See how it is already working at www.ResetSanFrancisco.org.

PHIL TING is running for mayor to give all of us a voice in resetting San Francisco — starting with resetting the broken Municipal Railway. www.ResetSanFrancisco.org www.facebook.com/ResetSanFrancisco
